### Smart Toilet with Tank-less Water Heaters

Also Known As: Tank-less water heater, instant water heater, on-demand water heater. Bidet toilet seats with tank-less water heating systems do not keep a reservoir of stored water. Instead, the heating element instantly heats the water stream when the wash is activated. The water will stay warm at the desired temperature for as long as the user is washing and doesn't run out. During wash, the bidet seat is able to heat the water "on-demand" allowing for quick temperature
